---

All soil will be left on site in small mounds **or** taken away at a cost to you, if you request us to do so.

Any bricks, rock, concrete, or services struck whilst digging will incur a variation to this contract at \$95 per hour, per man on site + GST and you will be notified before proceeding further.

Please mark the desired position of your bollards with a simple dot or cross, with some type of visible paint.

As we will be digging the holes strictly under your instruction, the below signed will be accepting all liabilities and costs associated to, and or damages caused whilst digging below the concrete, bitumen, pavers, or surface to any services.

I would highly recommend you **DIAL BEFORE YOU DIG** If you are not a 100% sure of all service locations, as Pruszinski Fabrication Pty Ltd accepts no liability for loss or damage arising from damaged services not identified prior to the commencement of work.

Please sign and return for acceptance of the above terms as we **will not commence any works** until I have received this signed document.
